## PROJECTS

### Community-verse

- Developed a full-stack website and landing page using Next.JS & TailwindCSS in front-end and MongoDB ,Firebase & Lambda serverless functions in the back-end.
- Integrated numerous features like post liking, commenting, & sharing based on MongoDB and Firebase.
- **Tech-stack** -Next.js, React.js, Node.js, Typescript, Tailwindcss, MDX, Sass, REST API's, MongoDB, Firebase, Postman, Vercel Serverless Functions, Figma(User Interface).
- **Source Code:**GitHub
- **Deployed-URL:**https://communityverse.vercel.app/

### Gitpic

- Fetched users data from GitHub API & Implemented it in React-based front-end.tweeted/shared by 20+ users.
- Overhauled gitpic website by redesigning landing page and improving mobile responsiveness.attracted 70% more visitors.
- **Tech-stack** - React.js,Node.js, Sass, REST API's, GitHub API, Postman, Figma(User Interface)
- **Source Code:**GitHub
- **Deployed-URL:**http://gitpic.vercel.app

### Bugtrons event website

- Worked on creating a fully static website using React.JS & Bootstrap.visited by 40k+ visitors in just 1 month.
- Optimized the landing page load time from 2100ms to sub 700ms improved lighthouse performance up to 97.
- **Tech-stack** - React.js, Sass, JavaScript, Figma(User Interface)
- **Source Code:**GitHub
- **Deployed-URL:**http://bugtrons.co

### TweetUp

- Created an API using Node.Js, Express.JS in the back-end. Uses Twitter API for collecting data of users and showing it in form of SVG.
- Gives personalised SVG with random tweets of user and can respond to 15k requests per sec.
- **Tech-stack** - Node.Js, Express.Js, Typescript, SVG, Twitter API, REST API's
- **Source Code:**GitHub
- **Deployed-URL:**Heroku

## OPENSOURCE CONT.

### Meshery

- Contributed to a cloud-native management-based project website called Meshery built on Go, & Jekyll, used by 100+ Companies . **Commits**

### Service-Mesh-Performance

- Debugged some bugs and contributed in User Interface fixes for the SMP website built on Ruby, Jekyll.used by 10+ companies **Commits**

## EDUCATION

BTECH in Computer Science

Jamia Hamdard University

📅 Aug 2019 – present

## SKILLS

- **LANGUAGES:** C, C++, Python, JavaScript, TypeScript
- **Lib/Frameworks:** Nodejs, Reactjs, Nextjs, TensorFlowjs, React Native
- **Tools:** Git, Github, Figma, Bootstrap, Tailwind-css
- **Platforms:** GCP, Vercel ,Heroku, Netlify, Firebase
- **Databases:** SQL, MongoDB, Firestore

## ACHIEVEMENTS

- Top Supervisor Award at GWOC.
- MLH INIT hackathon overall ranked 22nd out of 15000+ participants worldwide
- Team got Rank 4 at HackThisSolution Hackathon
- Supervised and Mentored at Opensource event ,Girlsript winter of contributing(GWOC), KWOC
- Google Cloud Facilitator in 2021
- Elected as Technical Head for the college society, Epoch.

## CODING PROFILES

- **Github:** 900+ commits in 2021
- **Devpost:** 50+ projects submitted
- **Stackoverflow**
- **Leetcode**
- **Hackerrank**

## LEADERSHIP

- Mentored 500+ students at some events/hackathons like DevelopersDays, GWOC, and KWOC.
- **CNCF-NewDelhi Organizer:** Spreaded awareness about Cloud Native technology via 5+ workshops and webinars.
- Been a Hack Club Lead and conducted 50+ of sessions to empower newcomers in tech.
- Founded an Opensource Community **Devstrons** which now has over 2000+ active members
- AngelHack Ambassador: The world's largest and most diverse global developer ecosystem.
